

Karen graduated from Northwest Missouri State University twice with both an undergrad and a Master's Degree. She grew up on a large progressive farm south of Maryville attending Nodaway Holt High School in Graham, Missouri. She has been in Kansas City's Northland since 1991. Being a licensed Real Estate Broker since 2003, she enjoys helping clients list their homes or farm ground and helping them find the perfect property for their needs. Great follow-through and customer service is her motto and keeping her clients apprised of all phases of the listing and purchase process. She enjoys long hikes through the woods, camping, and spending time with friends and family members. Most of all she is excited when she gets to spend a little time with her son, who at 19 is sometimes hard to pin down, and helping others to achieve their goals.
